

MAZDA CX-60 PLUG-IN HYBRID

FLEET GUIDE

EFFECTIVE FROM 1 JANUARY 2026

MAZDA CX-60 PLUG-IN HYBRID

Rivalling premium vehicles in its segment, this high-spec SUV represents everything that Mazda has built into its DNA over the last 100 years: from the great design, both inside and out, to our Japanese craftsmanship and new technologies, all focused on creating a fantastic experience for the driver and their passengers.

KEY INFORMATION

PERFORMANCE

The Mazda CX-60 PHEV combines our e-Skyactiv G 2.5-litre petrol engine with a 129kW electric motor and 17.8kWh high-capacity battery. This makes the Mazda CX-60 the most powerful road car Mazda has ever produced, with impressive power and torque figures of 327ps and 500Nm respectively, and a 0-62mph performance of just 5.8 seconds.

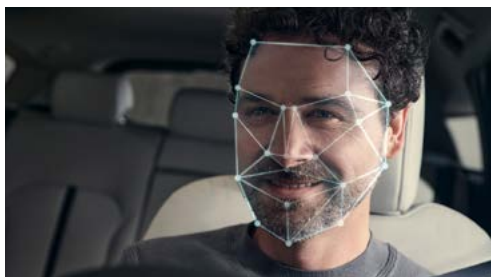

TECHNOLOGY

Mazda Intelligent Drive Select (Mi-DRIVE) offers a choice of five drive modes: Normal, Sport, Off-Road, Towing and EV, the latter allowing purely electric-powered driving. The Mi-DRIVE system is designed to provide optimum control and driving pleasure in every driving scenario.

SAFETY

The Mazda CX-60 boasts a 5-star Euro NCAP rating and advanced i-ACTIVSENSE driver assistance systems. The Convenience & Driver Assistance Pack adds a cutting-edge 360° View Monitor, expanding your vision at lower speeds. This pack also contains Mazda Radar Cruise Control which provides automated acceleration and braking to maintain a proper trailing distance between your Mazda and the vehicle ahead, elevating your driving experience.

DRIVER PERSONALISATION

Unique to Mazda, the Mazda Driver Personalisation System uses facial recognition to recognise the driver and automatically adjust the surroundings – seat position, steering wheel, mirrors and head-up display – to fit their physique. The system can also restore the drivers preferred audio and climate control settings.

HYBRID POWERTRAIN

The Mazda CX-60 PHEV introduces our first plug-in hybrid powertrain, paired with a new eight-speed automatic transmission and the latest i-ACTIV All-Wheel Drive system.

ENVIRONMENTAL

The Mazda CX-60 PHEV boasts excellent environmental credentials, with fuel consumption of 201.8mpg* and CO₂ emissions from only 32g/km*. It also offers up to 39.77 miles of emission-free driving in electric-only EV mode.

TOWING

The Mazda CX-60 PHEV showcases remarkable towing prowess with an impressive 2,500kg limit, highlighting its robust pulling capabilities.

*Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. All figures quoted are derived from the latest WLTP test cycle.

CRAFTED IN JAPAN

JANUARY 2026

*Figures shown are WLTP weighted combined. Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. All figures quoted are derived from the latest WLTP test cycle. Models shown may not be to UK specification.
*BIK tax figures quoted based on a per month cost in 2025/26 (except Scotland). BIK percentage applicable for 2025/26 tax year. For BiK purposes, 39.15 & 39.77 miles is rounded up to 40 miles as per HMRC legislation and therefore qualifies for 9% BIK 2025/26.

Colours and some exterior and/or interior elements may differ on screen from the actual model.

The official fuel consumption figures in mpg (l/100km) for the Mazda CX-60 PHEV Range: Weighted combined 201.8 (1.4). CO₂ emissions (g/km) weighted combined 33-32 g/km. The Mazda CX-60 is a plug-in hybrid vehicle requiring mains electricity for charging. Equivalent all-electric range: 39.15 to 39.77 miles. Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. All figures quoted are derived from the latest WLTP test cycle.
