

# MAZDA CX-80 PLUG-IN HYBRID

## FLEET GUIDE

EFFECTIVE FROM 1 JANUARY 2026

## THE MAZDA CX-80 PLUG-IN HYBRID

Our most spacious three-row SUV is here, offering seating for up to seven passengers. The Mazda CX-80 is a breath-taking example of premium Japanese craftsmanship - every element is carefully designed to help you make the most out of your busy life. The CX-80 represents a driver centric experience that prioritises comfort and safety in style.

# KEY INFORMATION

## PERFORMANCE

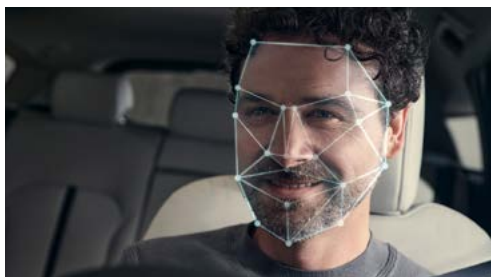

The Mazda CX-80 PHEV combines our e-Skyactiv G 2.5-litre petrol engine with a 129kW electric motor and 17.8kWh high-capacity battery. This makes the Mazda CX-80 one of the most powerful road cars Mazda has ever produced, with impressive power and torque figures of 327ps and 500Nm respectively, and a 0-62mph performance of just 6.8 seconds.

## TECHNOLOGY

Mazda Intelligent Drive Select (Mi-DRIVE) offers a choice of five drive modes: Normal, Sport, Off-Road, Towing and EV, the latter allowing purely electric-powered driving. The Mi-DRIVE system is designed to provide optimum control and driving pleasure in every scenario.

## SAFETY

The Mazda CX-80 boasts a range of safety features including the advanced i-ACTIVSENSE driver assistance systems. The Convenience & Driver Assistance Pack adds a cutting-edge 360° View Monitor, expanding your vision at lower speeds. This pack also contains Mazda Radar Cruise Control which provides automated acceleration and braking to maintain a proper trailing distance between your Mazda and the vehicle ahead, elevating your driving experience.

## DRIVER PERSONALISATION

Unique to Mazda, the Mazda Driver Personalisation System uses facial recognition to recognise the driver and automatically adjust the surroundings – seat position, steering wheel, mirrors and head-up display – to fit their physique. The system can also restore the drivers preferred audio and climate control settings.

## HYBRID POWERTRAIN

The Mazda CX-80 PHEV introduces our first plug-in hybrid powertrain, paired with a new eight-speed automatic transmission and the latest i-ACTIV All-Wheel Drive system.

## ENVIRONMENTAL

The Mazda CX-80 PHEV boasts excellent environmental credentials, with fuel consumption of up to 176.6mpg\* and CO<sub>2</sub> emissions from only 35g/km\*. It also offers up to 38 miles of emission-free driving in electric-only EV mode.

## TOWING

The Mazda CX-80 PHEV showcases remarkable towing prowess with an impressive 2,500kg limit, highlighting its robust pulling capabilities. Also where fitted, the 360° View Monitor includes trailer connection support view, which makes it easy to reverse up and connect to the centre of the trailer or caravan.

## JANUARY 2026

\*Figures shown are WLTP weighted combined. Figures shown are for comparability purposes; only compare fuel consumption and CO<sub>2</sub> figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. All figures quoted are derived from the latest WLTP test cycle. Models shown may not be to UK specification.

†BIK tax figures quoted based on a per month cost in 2025/26 (except Scotland). BIK percentage applicable for 2025/26 tax year.

Colours and some exterior and/or interior elements may differ on screen from the actual model.

The official fuel consumption figures in mpg (l/100km) for the Mazda CX-80 PHEV Range: Weighted combined 166.2 (1.7) - 176.6 (1.6). CO<sub>2</sub> emissions (g/km) weighted combined 38-35 g/km. The Mazda CX-80 is a plug-in hybrid vehicle requiring mains electricity for charging. Equivalent all-electric range: 38 miles. Figures shown are for comparability purposes; only compare fuel consumption and CO<sub>2</sub> figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. All figures quoted are derived from the latest WLTP test cycle.
